TACTILE BOOK PRODUCTION FOR THE VISUALLY IMPAIRED

Tactile books are special as both the visually impaired and normal sighted persons can read them as they comes with text, Braille, and colorful, two dimensional graphic illustrations.

Read through touching the graphic and Braille. The graphic illustrations are made from various materials such as fabric, wool, fake furs, textures papers and plastics, thread and many more.

A total of 583 tactile books produced by library staff and students.

This service enabled the library to expand its outreach activities and variety of reading materials to serve the visually impaired readers at various institutions at Putatan Special Education School, Taman Cahaya Training Centre, Wallace Home for the Blind and many more.
