Q-PAR
TAFSIR AL-QURAN
PIMPINAN AR-RAHMAN
SOFTWARE

INTRODUCTION

This product allows query in Malay language to obtain Ayat in Tafsir Al-Quran Pimpinan Ar-Rahman, that is also in Malay. It adopts Direct Keyword Matching Rule, whereby longer query will obtain results with low recall but high precision. The software is intended not only for researcher but for general public as well.

Objectives
1. To provide an authentic Malay Tafsir Al-Quran Software as a guide for all levels of users.
2. To bring natural language closer to machine.

Contributions
1. Caters for wide range of target users such as researchers, academicians, students and public.
2. Faster as data compiled at machine level.
3. Can be used for natural languages.

Researchers
Dr. Fauziah Abdul Wahid
Ahmad Akmaluddin Mazlan
Auni Hazimah Ab. Wahab
Dr. Roesnita Ismail
