An innovative method to save the cost of organising library activities by Sabah State Library, Komuniti Dintar Perpustakaan (KPP), Library Smart Community, service that brings the communities together through SB concept (Beli (Buy), Belajar (Learn), Bawa (Takeaway)) activities.

Collaborative project with the communities:

- The library provides place and basic need for the activities
- Community members provide kits and skills
- Promotion of activities conducted by both parties
- There is no cost involved in this collaboration
- This win-win situation brings side income to KPP members while libraries are getting results from major statistical improvements as well as a good network of relationships with local communities
