Save Our Space

It all began with...

To save space
With the outgrow number of students in Tenby Schools we have to increase the number of our collection too; facing with the limitation of space in our library we decided to turn our resources into e-books.

A lot of damaged books
To ensure that we will still have copy of the damaged book because sometimes the books are no longer in circulation.

Multiple users Access
Buying many copies of popular books has not always been a practical solution for libraries. Once converted into e-book students may able to access same book all at the same time.
