VISUALLY-IMPAIRED PERSONS SERVICES @ TAMAN CAHAYA, SANDAKAN, SABAH
- A government residential training institute for VIPs

VISUALLY-IMPAIRED PERSONS SERVICES or V.I.P.S.
1. Specialised service provided by the Sabah State Library to the visually-impaired persons (V.I.P.) started in 2015.

2. Taman Cahaya currently accommodates 50 residents from all around Sabah.

The Sabah State Library supports the need for infotainment by:

- Providing a bulk loan service of reading materials in the form of Braille books, talking books and tactile books.
- Producing the reading materials in-house by library staff and housed in the centre’s mini library.
- Carrying out engaging reading campaign activities for the residents on a regular basis, in order to inculcate a sustainable reading habit among them.

The Sabah State Library will continue to provide these services and the free reading materials to fulfil their information and recreational needs, to support their life long learning and insatiable thirst for knowledge.

Great benefit to the residents, as it has assisted in improving their knowledge and skills on certain aspects of their life especially with regards to training, livelihood, and recreation. Notably in reflexology, which is one of their sources of income, to support their family.
