Evidence-Based Practice (EBP) Decision Making Toolkit for Libraries

The Evidence-Based Toolkit enhanced the Evidence-Based Libraries (EBL) practice in decision making, aid librarians in justifying the acquisition needs and determining the quality of resources to be acquired.

- Promote the EBL practice in library decision making
- Aid librarians in justifying the acquisition needs
- Determine the quality of resources to be acquired

Potential to be made online as an online assessment

This invention is part of an idea from an Academic Research. An appreciation to the Ministry of Higher Education Malaysia, University of Malaya and Universiti Teknologi MARA (UiTM), Malaysia.
